It is inadmissible expert opinion from a non-designated expert and improper lay opinion because it purports to summarize diagnosis and treatment over a two year period without any reference to medical records or other documentation. FRE 701-702. Plaintiffs have not designated Ajaka as an expert. FRE 602. The statements in the letter regarding Bowoto's claims about what happened to him and how he was treated at Eku Baptist Hospital are hearsay, speculative and inadmissible opinion testimony. FRE 602, 70-702, 802. The record is not authentic as a foreign business record because plaintiffs have not laid proper foundation or provided the declaration required by Fed. R. Evid. 902(12)(C). Nor does plaintiffs' citation to 167:18-169:5 establish that Ajaka reviewed or relied upon Bowoto's medical records in preparing the letter, but only that he "pulled" the records. Furthermore, Bowoto did not request copies of his medical records from Medway when he asked for the letter or at any time. <i>See</i> 70:4-8, 21-24. Contrary to plaintiffs' assertion, there is no testimony that Ajaka was the "lead treating physician" and Ajaka does not even remember how often he was in the hospital in 1998. <i>See</i> 129:17-130:8. Nor does Ajaka know or remember details about Bowoto's treatment. For example, he cannot remember the first time he saw Bowoto after he was admitted (156:12-22); he does not know if he discharged him the first time (159:3-12); he does not</p>	<p>Defendants' assertion, Dr. Ajaka testified that he prepared this letter from a review of medical records and that this kind of record was an ordinary record.
